Personal Details

• Full Name

Mohomed Sarook Mohomed
Shabeeha

• Date of Birth

08th of September 2005

• NIC

200575201495

• Marital Status

Unmarried

• Nationality

Sri Lankan

Languages

English : Fluent

Sinhala : Fluent

Tamil : Fluent

About Me

Passionate and results-driven Software Engineer with strong expertise in full-stack development and machine learning applications. Proficient in React.js, Node.js, Express.js, and MongoDB, with hands-on experience in building scalable, data-driven systems. Skilled in developing RESTful APIs, implementing authentication mechanisms, and working within Agile environments. Recognized for strong problem-solving abilities, collaborative teamwork, and delivering high-quality, production-ready solutions.

Education

BSc (Hons) Software Engineering

Cardiff Metropolitan University (Partnered with ICBT Sri Lanka)
May 2025 – March 2026

Higher Diploma in Computing and Software Engineering

Cardiff Metropolitan University (Partnered with ICBT Sri Lanka)
May 2023 – Dec 2024

Technical Skills

Technical Skills

Programming Languages

- Java, JavaScript, Python, PHP, HTML, CSS

Frameworks & Libraries

- React.js, Node.js, Express.js, Flask, JSP, Servlets

Machine Learning & Data Analytics

- Scikit-learn, Random Forest, Regression Models, Feature Engineering, Model Evaluation (R^2 , MAE, RMSE), Cross-Validation

Databases

- MongoDB, MySQL, SQLite

Web & Backend Development

- RESTful APIs, MVC Architecture, CRUD Operations, JWT Authentication & Authorization

Tools & Technologies

- Git, NetBeans, Android Studio, Apache Tomcat

Concepts & Practices

- Object-Oriented Programming (OOP), Agile Methodologies, Modular Design, Validation & Error Handling

Soft Skills

- Problem-solving.
- Analytical and critical thinking.
- Team collaboration.
- Communication skills.
- Time management.
- Adaptability and quick learning.
- Attention to detail.
- Self-motivation.
- Ability to work under pressure.

Project Experience

AI-Driven Plant Health Monitoring System

Final Year Academic Project

Technologies: Python, Flask, Scikit-learn, React.js, MongoDB, JWT, Git

- Developed a Random Forest classification model (200 trees) achieving 95%+ accuracy for plant health prediction.
- Built a Flask REST API and React.js frontend for real-time predictions and visualization.
- Implemented JWT authentication and MongoDB for secure storage of prediction history.
- Automated PDF report generation and integrated confidence scoring.
- Applied Explainable AI (XAI) techniques for transparent predictions.
- Followed MVC architecture and modular design for scalability.

Real Estate Price Prediction System

Technologies: Python, Pandas, NumPy, Scikit-learn, Flask, Streamlit

- Built an end-to-end regression pipeline using 100,000+ records and 19 features.
- Designed a Scikit-learn Pipeline with ColumnTransformer to prevent data leakage.
- Achieved $R^2 \approx 0.997$ with low MAE and RMSE using Random Forest Regressor.
- Deployed via Flask API and Streamlit interface for interactive testing.

Learning Management System (LMS)

Technologies: MERN Stack

- Developed a full-stack web application using React.js, Node.js, Express.js, MongoDB.
- Implemented RESTful APIs, role-based authentication, and secure data handling.
- Worked in an Agile environment with Git-based version control.

Pahana Edu Billing System

Technologies: Java, JSP, Servlets, MySQL

- Developed a database-driven billing system using MVC architecture.
- Implemented authentication, billing modules, and reusable DAO layers.
- Deployed on Apache Tomcat.

Banking System — Java Desktop Application

Technologies: Java, NetBeans

- Built a desktop application for account management and transactions.
- Applied OOP principles and validation mechanisms for data integrity.
- Designed a user-friendly GUI with modular architecture.
